

DDMRP : DDBRIX SERIOUS GAME

OBJETIVOS

A serious game to discover DDMRP (the new planification and supply chain steering method)

CONTENIDOS

- General presentation of DDMRP
- First run of simulation : identifying issues with classic planning in manufacturing
- Second run : Identifying Lean manufacturing and one piece flow benefits
- Identifying issues with wrong forecast
- Third run : how DDMRP runs the same production as first run
- Identifying benefits of using DDMRP vs MRP when using the same wrong forecast, including unforeseen events that may have happened in real life.

HORARIO

- 8 Horas

11 de Noviembre de 08.30h a 13.30h y de 14.30h a 17.30h
